## ELECTRICIANS PLASTIC LOCKOUT KIT

### FEATURES

- The perfect handy size kit for portability when you can only carry so much to the job.
- Red & green nylon lockout padlocks are non-conductive and have a reinforced nylon body with a nylon shackle well suited for harsh industrial environments
- Mini circuit breaker lockouts fit on breaker toggles and can be tightened using the twister screw
- Nylon lockout hasp is tough, light weight and non-conductive
- Large circuit breaker lockout is a safe and effective method for locking out circuit breakers
- Lockout tags can be written with an erasable pen
